Aerofix 100

Engineered by Häfele

Aerofix 100

The adhesive insert for
frameless honeycomb
panels is used for screw-
on fittings.

ADVANTAGES

The Aerofix 100 clings to the surface layers of the honeycomb panel. This provides additional stability and strength.

The integrated adhesive makes additional work operations and technical equipment superfluous.

The insert is simply press fitted into the honeycomb panel manually or by automatic machines.

The fittings can be attached immediately after the insert is positioned. The final strength is reached after 16 hours.

OVERVIEW

Application

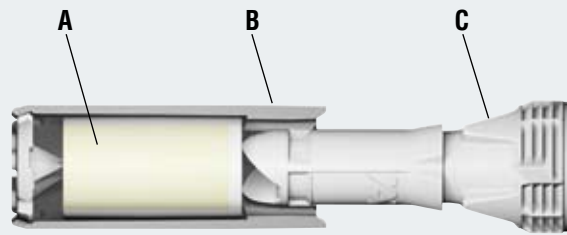

For screw-on fittings such as hinges, runners, castors, furniture feet, sliding door fittings, connecting bolts.

Installation

Can be knocked-in manually or pressed in by automatic machines

Application area

For lightweight panels with a top layer of 4 mm.

ORDER INFORMATION

Packing: 100, 500, 1000 pieces

Material: Plastic, one-component PU adhesive integrated

Wood thick.	Cat. No.
25 mm	039.70.254
28 mm	039.70.284
30 mm	039.70.304
32 mm	039.70.324
34 mm	039.70.344
38 mm	039.70.384
40 mm	039.70.404
50 mm	039.70.504
60 mm	039.70.604

Accessories:

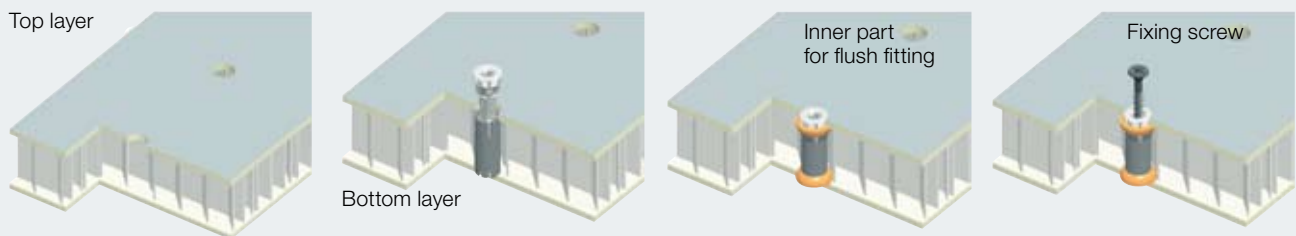

The following can be screwed into the Aerofix 100 adhesive insert:

3.5 and 4.0 mm chipboard screws

3.0 mm Varianta screws

3.0 mm connecting bolt **Cat. No.:** 263.20.805

APPLICATION

Ø 10 mm drill hole

Insert the Aerofix 100

Push in until it is level with the surface
Secure by screw fixing the surface

The Aerofix 100 expands below the top surface layer when inserted.
